

Let's Walk Big Rapids

Enjoy the beauty of Big Rapids and the Riverwalk

There are access points to the Riverwalk at Northend Riverside Park, Swede Hill Park, Hemlock Park, and Phase III is under construction this summer and will begin at River Street Park behind the Hospital.

At each park there is a large map showing different routes through out the city of Big Rapids, as well as small brochures with information and a map. These maps are part of the Big Rapids Healthy Coalition. If you have ideas on another healthy, active project you would like to see City Recreation try please notify the Recreation Director at recreation@ci.big-rapids.mi.us

Let's get out there and make our community a healthier, active place to live!!
